

FRYLINE

Continental's NEW Fryline hose is built for the safe, efficient transfer of hot edible oils. Designed with a high-temperature resistant, FDA-compliant white NBR tube and a steel braid reinforcement, Fryline withstands temperatures up to 275F (continuous) and 350F (intermittent) without affecting taste or quality. Ideal for commercial fryers and filters, it also handles other edible liquids requiring oil resistance such as salad dressings.

Performance + Specs

Tube

- NBR

Cover

- NBR

Reinforcement

- One braid steel wire

Temperature Range

- -40°F / -40°C ~ 350°F / 177°C

Design Factor

- 10:1

Packaging

Cut lengths 50ft, 100ft

Reels 500ft

Coupling

- Contact fitting manufacturer for proper fitting recommendation and coupling procedures

Branding

CONTINENTAL FRYLINE MEETS FDA MADE IN USA
