

HYDROVATOR NATURAL RUBBER (NR)

When performance meets endurance, you get the Hydrovator™ContiClean Survivor. It is built to outlast and engineered to perform. Continental's premier solution for Hydro Excavation. Designed exclusively for Hydrovac operations, this rugged yet lightweight hose features the ContiClean® Survivor® compound, a proprietary rubber blend proven to deliver twice the abrasion resistance of standard liners. Whether you're tackling the harshest vacuum excavation environments or demanding full vacuum performance, Hydrovator™ stands up to the challenge. Its corrugated SBR cover ensures superior flexibility, while the static-dissipating construction enhances safety in high-friction environments. Available in multiple sizes and tube compounds and custom factory assemblies.

Performance + Specs

Tube • Chemituf® (541-289) • ContiClean Survivor® (541-962 Black) • Tars and Oil (541-993) • Natural Rubber (NR) (541-052 Red 3/8")	Cover • SBR
Reinforcement • Spiral-Plied fabrics with double wire helix	Temperature Range • -25°F / -32°C ~ 180°F / 82°C
Coupling • Can be built with plain end, soft end or enlarged soft end. Contact fitting manufacturer for proper fitting recommendation and coupling procedure.
