

## RIG SUPPLY SW

Oil Rig SW is for use on offshore oil rigs to transfer petroleum-based products with up to 50% aromatic content. This hose has superb oil resistance with its unique tube and cover compounds plus anti-static wire. High strength reinforcement provides toughness and a high safety margin. This hose has a maximum working pressure of 290 PSI (20 Bar).

### Performance + Specs

|                                                                                                                                                          |                                                                                                                             |
