

VINTNER™ RESERVE

The Vintner™ Hose Family is designed for safe, sanitary transfer of wine, beer, juices, dairy, potable water, and other liquid food products in both in-plant and tank truck applications. Suitable for suction and discharge service, it features a crush-resistant, rust-proof monofilament helix for durability and flexibility. Available with three tube options to match application needs: Chlorobutyl (549-381): Ideal for carbonated beverage, wine, beer, juice, and acidic beverages offering low permeability and chemical resistance; EPDM (549-695): is excellent for heat resistance and demanding CIP processes, suited for non-oily applications; Nitrile (549-123): Designed for oily and fatty products, providing enhanced oil resistance. Vintner™ delivers reliable performance, product integrity, and hygienic compliance across food and beverage applications.

Performance + Specs

Tube (549-695) EPDM Rubber (549-381) Chlorobutyl (CIIR) (549-123) Chemivic (NBR / PVC) - Meets FDA, USDA & 3-A Sanitary Standard 18-03 Certificate #3727	Cover - EPDM Rubber Wrapped Impression (549-695 & 549381) - CHEMEVIC NBR/PVC (549-123)
Reinforcement - Spiral-Plied Synthetic Fabric - Monofilament Helix	Temperature Range -25°F / -32°C ~ 220°F / 104°C
Design Factor 4:1	Coupling Refer to the Continental Industrial Hose Assembly Manual for crimp specifications or contact fitting manufacturer for proper fitting recommendation and coupling procedure.
